Realtime ILI forecasting report: Massachusetts

Graham Casey Gibson, Nicholas Reich, Evan Ray

3/28/2019

Intro

The Reichlab produces weekly forecasts of the percentage of doctors visits that present with influenza-like-illness (ILI) at the state level based on data provided through the CDC Flusight challenge. We use historical ILI incidence to predict future ILI incidence using statistical models.

MA Results

What follows is the forecasted 1-4 week ahead ILI along with 50% and 80% confidence interval around the forecasts.

```
## Scale for 'x' is already present. Adding another scale for 'x', which
## will replace the existing scale.
```
